Installation and use of guide comb

1. Make sure the trimmer is turned off;
2. To install the guide comb, first press it gently into the slot (Figure A) until it clicks into place.
3. Remove the guide comb, hold both sides of the trimming comb with one hand, and pull it up.

4. To adjust the size of the guide comb, rotate the adjustment knob on the body, one gear per 0.5mm, the size increases in the counterclockwise direction, and decreases in the clockwise direction;

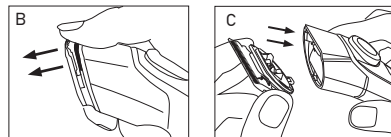

T-blade trimmer and Full-size Trimmer blade are each provided with two trimming combs, which are used to trim hair with a length range of 1-10 mm and 11-20 mm respectively. Please choose the appropriate trimming comb according to your needs; When trimming the beard with the guide comb, in order to avoid trimming too long by mistake, we recommend that you trim along the direction of the beard growth;

Removing and installing the cutter head

1. Make sure the trimmer is in the off state;

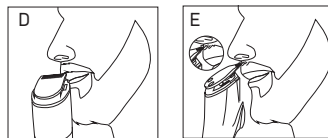

2. When removing the cutter head, place your fingers on the cutter teeth and push outwards with force (as shown in Figure B);
3. When installing the cutter head, align the bottom of the cutter head with the card position (as shown in Figure C), press upwards, and buckle the cutter head into the body,

Instructions for use of the blade

2. Full-size trimmer is used for carving the beard line around the lips (Figure D), fine and short hair and beard trimming;
3. Precision Trimmer is used to trim the exposed hair of the nostrils/fine carving trimming (Figure E);

4. Nose & Ear Trimmer is used to trim nose hair and ear hair;
5. Body Trimmer is used to trim hair on various parts of the body trunk: chest hair/leg hair/armpit hair, etc.;

Oil

For better cutting performance, it is highly recommended to keep the blade oiled after each use.

1. Unscrew the cap of the oil bottle and cut off the end of the plastic tube with scissors.
 2. Remove the blade cover and turn on the clipper.
 3. Hold the clipper at a 45-degree angle, squeeze the tubing lightly, and drip some amount of the oil directly onto the blades
 4. Leave the clipper on for a few more seconds to allow the oil to spread thoroughly along the length of the blade.
 5. Turn off the hair clipper and gently wipe with a cloth to remove excess oil before use.
- Important: It is recommended to replace the blade head once a year for better cutting performance.

After a 40-minute continuous use, it generally heats up slightly. Please turn off the clipper and restart it after it cools down. If the heat is abnormally high, please stop using it immediately and cool it down for a while before restarting. If the heat persists, please contact customer service via support@suprent.com.
